PROFILE

Web and multimedia development specialist with proven experience. I have an outstanding track record in building interactive applications and websites, and skills in design optimization and the implementation of advanced technologies. I would like to take responsibility in a company that values quality work. Contact me on social media or by email to work together

WORK EXPERIENCE

Limegroup marketing
SEO Specialist

2024 - PRESENT

- Search engine optimization of the company's page through effective tactics, such as sitemaps and integration with Google Search Console. Organic traffic analysis with Ahrefs.
- Making content changes to the page using Squarespace, HTML, and CSS for specific parts.

University Pinar del Rio

2022 - 2023

Web developer Full stack

- Collaboration in the CRY of the University of Pinar del Rio in a project called Tocaroro, integrating artificial intelligence to analyze scientific publications using Django REST Framework, Angular and PostgreSQL.
- Use of version control systems, preferably Git, for source code management.
- I work with different databases and back-end and front-end contexts.
- Detection of potential errors and elaboration of solutions for their correction or neutralization.
- Creating interactive user interfaces with React or Angular.
- Design and development of responsive websites using HTML, CSS and JavaScript.
- Implementation of back-end solutions in Node.js for web applications.
